

## Overview Accessories

### Frequency converter

Type	: Altivar 61
Power output	: from 45 kW (68hp) up to 132 kW (200hp)
Voltage	: 3 x 380 up to 3 x 480 V
Supply frequency	: 50 or 60 Hz
Nominal current	: up to 259 A
Frequency range	: 0,1 ... 500 Hz
Power uptake	: 130 % of the nominal current, up to 60 s
Weight	: 1.300 kg
L x W x H	: 2.200 x 2.450 x 2.250 mm (container)
Cable connectors	: eyelets M10
Particularities	: master switch, emergency stop LCD display, touchscreen air-conditioning, lighting 2 monophasé plug boxes
Equipment	: fork lift pockets, lifting eyes
Programming	: setting of the desired fixed frequency frequency control as a function of desired pressure, flow, ...
Input (signal)	: floats, signal 4 – 20 mA
