## Jetring

## Q-P curve

- Description : Structure for mounting on a submersible pump with agitator.  
 Goal : Bringing in motion and mixing of (settled) materials, so that the emulsion may be pumped.  
 For mounting on : KRS2-100 & KRS2-150  
 Paired with : High pressure pump, ex. : 8060, 8090, 120/1056, SKD100/160, PP43, BA-C100 or LH-series, depending on the application.  
**We are always happy to advise**  
 Connection : DSP-65 coupling  
 Nozzle diameter : 11 mm  
 Number of nozzles : 1 to max. 4 nozzles  
 Weight : 16,6 kg  
 Material : S235 Structural steel
