

BA100E D240 Electrically driven pump 4"

Curve Q-H

Type	: BA100E D240/MC+V
Applications	: sewage, contaminated water, ...
Motor	: 3 x 400V, 50 Hz
Power output	: 11 kW at 1.480 rpm
Nominal current	: 22 A
Free impeller passage	: 80 mm
Weight	: 700 kg
Dimensions	: 1.950 x 820 x 1.600 mm
Coupling	: suction and discharge side : Perrot quick couplings 4" male
Characteristics	: automatic dry self priming centrifugal pump, equipped with vacuum pump MP50 compact pumpset, with non return valve at discharge side, incl. vacuum- and manometer large free impeller passage 2 float switches for automatic start/stop, plug 32A 5p male
Equipment	: chassis with forklift pockets, lifting eye
