

Raptor 4E Heavy Electrically driven pump 4"

Type	: Aeon Raptor 4E Heavy
Applications	: muddy water, sewage, contaminated water, ...
Motor	: 3 x 400V, 50 Hz
Power output	: 7,5 kW at 1.700 tr/min (+ 1,3 kW for vacuum pump)
Nominal current	: 17 A
Free impeller passage	: 75 mm
Weight	: 900 kg
Dimensions	: 1.635 x 990 x 1.482 mm
Coupling	: suction and discharge side: Perrot quick couplings 4" male
Characteristics	: dry self priming centrifugal pump, equipped with vacuum pump compact pump set, equipped with ball check valve on discharge side, incl. vacuum and manometer large free impeller passage control panel with frequency converter, possible 2 float switches and sensor for automatic operation plug 32A 5p male
Equipment	: stackable chassis with forklift slots, lifting eye
